The app makes it easier to communicate with Ambulance staff if you need their help.

The app has pictures that you can press.

The pictures speak when you press them.

- Your name and date of birth
 - What has happened to you
 - Where it hurts

- You can use the app if
- You use pictures or symbols
 - You are too ill to talk
 - You can't hear
 - If English is not your first language

Anyone can download the app.
The app is free.

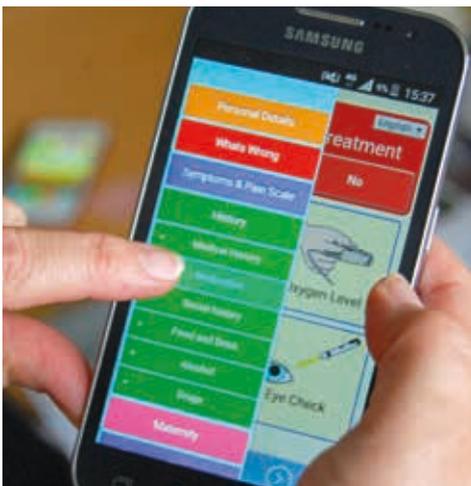

You can get the app on most mobile phones and some tablets like iPads.

On Apple iOS,
search the App Store for
PreHospApp

On Android,

**Pre-Hospital Communication
App**

On Blackberry,

If you do not have a phone
or tablet you could ask the
ambulance staff if they have it
on their phone.
